How to make order in Hana Master's PCBA system

You'll need 3 files in order to be able to make order

- BOM file based on the provided template
- CPL file (can be any Excel, CSV file)
- Gerber file (ZIP compressed format)

1. Login / Register to your account

2. Enter your PCB Specs / Upload BOM

Entering PCB Spec first

If you choose to enter PCB Spec first, you'll be redirected to this page:

The screenshot displays the 'PCB Specification' form with various input fields and an 'Estimated Price' box. The form includes fields for Length (mm), Width (mm), Layers, Quantity, Thickness (mm), Different designs in 1 panel, FR4Tg, Minimum Track/Spacing, Minimum Hole Size, Solder Mask, Silk Screen, Surface Finish, Via Process, and Finished Copper. There is also a checkbox for 'Gold Fingers'. At the bottom, there are two buttons: 'Calculate Price' and 'Create new PCBA Order'. A red arrow points to the 'Calculate Price' button with the text 'Calculate estimated price for PCB Spec'. Another red arrow points to the 'Create new PCBA Order' button with the text 'Create new order based on the PCB Spec'. The 'Estimated Price' box shows '\$ 307.59' and includes a note: 'This price is not including the shipping cost. All prices are in USD'.

Upload BOM Excel file to begin.
